### PRESIDENT'S MESSAGE

Thanks to all members who turned out for the January Meeting. It had a full and important agenda and, as requested, had legal representation present to answer some issues which were raised. It has hopefully answered some questions, as well as put several rumors to rest.

Voting for Board members also took place, and the ballot results of that election are shown elsewhere in this newsletter. It is good for HVR to have a full Board again, and I look forward to working with them on the Park's behalf. Your Board oversees things that keep HVR running smoothly, including keeping on top of new Texas Law changes that the Park must then legally implement. This requires a lot of effort from each Board member. I want to personally thank each of them for volunteering to give a large portion of their time to help achieve these goals.

Having said that, it is not just Board members who put in a lot of their time. Things don't just magically happen in this Park: hall decorations don't hang themselves, buildings don't maintain themselves, food doesn't prepare itself, and the dozens of scheduled activities don't set themselves up before your participation. These tasks - as well as numerous others - require a great deal of "behind the scenes" work. It is those many volunteers who collectively pitch in and help to get things done that makes HVR the great Park that it is!

So, when you see one of these volunteers doing a job for the Park (no matter how big or small the task), take the time to thank them. Tell them how much their efforts are appreciated! After all, It's their only "payment" for the tasks!

*Jim Bowans*

At our age, the biggest lies we tell ourselves:

"I don't need to write that down, I'll remember it."

"I can move that lounge. It's not heavy." The next day, your back lets you know you lied again!

While red varieties are grown in citrus regions around the US, the Rio Red grapefruit variety grown here is famous for its bright red color. RGV farmers insist on their claims this variety helps to lower rates of cancer and heart disease, as well as possibly ward off osteoporosis.

In any case, the fruit's sweetness and low acidity is what today's consumers want.

## **SLAM THE SCAM**

Editor's note: This is a reprinted portion of an article featured in this newsletter a year ago. It is reprinted because it is still relevant, still entices many Facebook users to innocently respond and, unfortunately, is resulting in them eventually being hacked by these scammers. Please be warned!

Identity fraud happens when criminals use your stolen personal information to access your bank accounts, buy goods & services on your cards, or hack into your computer or email accounts.

How? To do so, they simply make use of your personal info that you give them.

### **STOP PROVIDING THEM WITH YOUR PASSWORDS AND SECURITY DATA!**

You might think, "Well, I'd never do that" but you may well be doing that very thing and not realizing it. How? By answering these sorts of seemingly innocent Facebook questions:

"How old would you be if your age was reversed?" (Narrows finding your exact DOB)

"What was the first make of car you drove", or "Date yourself by naming the first concert you attended." (Both questions are often used as banking security questions)

"Most marriages only last 7 years. Prove me wrong." (Helps find your marriage registry info)

"What was the name of your first pet" or "What was the name of your fifth-grade teacher?" (Common suggested passwords)

Answering those inquiries helps scammers to gather your personal data. What can you do?

In a nutshell, **STOP ANSWERING THOSE KIND OF POSTINGS.** Do not feel compelled to tell others that stuff. Just scroll on pass!

**Be Safe! THINK before you post  
info world-wide on Facebook!**

### **WANTED**

We are still looking for someone to take over the role of accepting/sorting donated items (such as clothing, linens, toiletries, etc.) suitable for the ABUSED WOMEN SHELTER and then delivering them to the secretive location about once a month.

Contact Sandy Hurst for more information if this interests you. Get a friend or two to help you!

## LIVING WITH DYSTONIA

Dystonia is a disorder characterized by involuntary muscle contractions that can cause limited movements or abnormal postures. The symptoms may be painful and/or cause some individuals to tremble, while others will not display any of those symptoms.

Long-time resident **Judy Fink** has dystonia, and she was recently interviewed/messengered:

Editor: When did your symptoms start?

**Judy:** Thirty-two years ago. It started for yet unknown reasons with my eyelids, and within a few months had travelled down to my neck muscles and eventually to my throat and larynx. Fortunately, it stopped there, and I am thankful that I do not have pain symptoms that many other sufferers have with the disorder.

Editor: How has it affected your speech?

**Judy:** I have no control over the amount of expulsion of air across my vocal cords as is normally done with a steady flow when you speak. Think about blowing up a new balloon: You blow and blow with no results and then suddenly the balloon bursts out and expands. Similarly, I try and try to force air across my vocal cords until suddenly a sound comes out. It is usually a loud harsh sound, which is often mistaken for me being upset but that is not the case.

Editor: What treatments have you endured?

**Judy:** I have had more Botox injections than I can count, but they provide only short-term limited success improving my speech and eyesight. In mid-January, I started having trial injections directly into my tongue, so we shall see how that goes.

Editor: Any regrets over the years from the dystonia?

**Judy:** Two, I guess. First, that I can't sing anymore, either in a choir or to my great-grandchildren. Second, that people leave me out of conversations for fear they won't understand me. I get it, but I won't be offended if they ask me to repeat - or write - what I just said. I'd rather they did that than pretend they understood me.

Ed: Any last comment?

**Judy:** I want to acknowledge Ray for standing by my side all these years through the symptoms, the depressions, and the treatments. So thankful for him. And thanks for this opportunity to enlighten others.

### **THINKING OF RENOVATING?**

HVR owners wishing to make ANY exterior changes to their property (such as awning, deck, shed, concrete, etc.) are reminded that they must first seek approval of their plans from the HVR Architectural Committee, then obtain proper permits from the County.

Packets which set out both the Park and County rules and regulations are available at the Office.

The Architectural Committee meets Tue 10am

### **ANDY Lander's Advice for Men:**

Dear Andy: My wife and I argue over food. She refuses to save any leftovers, and I think that's wasteful. What do you think?

Andy here: In our house, we DO NOT throw away perfectly good food. We put the leftovers in a Tupperware container, put the Tupperware in the back of the fridge, forget about it until the food has gone bad, THEN we throw it out.

Dear Andy: A woman with a salad walked past me in the restaurant and said, "You know, a cow died so you could eat that meat." I said nothing. How would you have handled the situation?

Andy here: I would have said, "Maybe if you weren't eating its food, it might have lived."

Dear Andy: I was in a public washroom yesterday, and both of the other two patrons walked out without washing their hands. With Covid and all, don't you agree that's so unsanitary?

Andy here: True, but let me remind everyone that no matter how good the hand soap smells, never walk out of a bathroom sniffing your fingers.

## **The Good, The Bad, and the... ...Ugly Truth about household germs**

Ed. Note: These are excerpts gleaned from an article I had filed away. It is meant to remind you, not alarm you.

Fact: There are countless billions of tiny creatures living on you, in you, and on the surfaces of everything around you. These microscopic organisms, or microbes, are **both good and bad news** for us.

The average adult has about 4½ pounds of various “**good microbes**” living inside their bodies, and those are good pounds you DO NOT want to lose! The ones living in your gut, for example, are necessary for breaking down your foods for digestive purposes. Without a sufficient number of those good microbes, you could have digestive tract problems.

The “**bad microbes**” have the potential to spread disease, and thus keeping those germs reduced in our surroundings is an endless daily quest for most of us. But, while we think we’re doing a good job eradicating them within our very own household, we may in fact be doing just the opposite. That’s right! The “experts” tell us we may actually be spreading them throughout our homes more. How?

If you were asked to name the **dirtyest area of most typical households**, what would you say?

According to thorough and exhaustive nationwide studies led by the University of Arizona, the number 1 filthiest area (meaning the one teeming with the most “bad” germs) was repeatedly found to be the kitchen dishrag! Most kitchen cloths/sponges are drenched in bacteria, having built-up over hours if not days of repetitive use. Continuing to use one to wipe up spills, then wipe down counters, then wipe off a cutting board or stove top or fridge handle, then wipe away grease from a dish merely transfers microbes from one place to another, affording them new chances to breed and proliferate.

**Remedy:** Don’t be frugal with your sponges. Replace them regularly and disinfect them every day. The most effective method? Heat your cleaning sponges in the microwave for a minute to kill 99.9% of the bacteria. Better still, use cheap ones and throw them away often. Folks, they’re cheaper than a prescription to cure that “bug” you picked up somewhere. Hmmm, guess where?

## **Jes’ WONDERIN’...**

... do Lipton Tea employees take coffee breaks?

### **CRAFT NEWS**

**DISPLAY SHOW:** Feb 20<sup>th</sup> 1:00-2:00

View what our talented members have created this season, whether from a class or on their own: Paintings, wood carvings, needlework, stained glass, etc. (Displayers: set-up at 12:30)

Come “ooh and aah” at their creations!

**Craft Supply Exchange:** Feb 13<sup>th</sup> 1-2p

Here’s a chance to get rid of your unused project leftovers and find some goodies you can use for your next one. Best of all, it’s all FREE!

### **NEW HVR DIRECTORIES**

The new directories are (or will soon be) available at the office.

Remember that your old one is recyclable on Thursdays.

### **LOWER PROPERTY TAX ANNOUNCED**

In case you missed it, Texas recently passed a new law limiting/reducing the amount the Counties can charge Seniors for the School Board portion of their property tax.

Feel free to put those savings as down payment towards your next purchase of a dozen eggs!

### **UNWANTED WEEDS?**

If you’re looking for an inexpensive weed-killing solution, try this:

Pour (apple cider) vinegar into a spray bottle. Using a funnel, pour some Epsom salts into the same bottle. Close the bottle and shake it well to mix the ingredients.

Spray the solution on those pesky weeds – you know, those ones between the rocks that wouldn’t grow there if you wanted them to do that!

### **WHEN YOU’VE BEEN MARRIED TOO LONG**

**HIM:** “I love you.”

**HER:** “What did you buy this time?”

## **SOME FRIENDLY REMINDERS:**

**If you notice** an HVR item in need of repair or maintenance, please fill out a form found on the wall by the front desk. Let's nip small repairs in the bud before they become costly.

**Cover** the hot tub when done (no matter what time of day) to help reduce heat loss / costs.

**Turn off** the fans and unnecessary lights, if you're the last one out the door of any HVR building.

**Please** observe posted 15mph speed and STOP signs throughout the Park. This extends to bikes and golf carts. SLOW DOWN.

**Pick up** after your pets. Non-Service Pets are not allowed in any HVR building.

**If you use** any Park facilities, clean/straighten it up when through. Leave it looking better than when you walked in.

**Pick up** any citrus fruit lying on the ground. It needs to be picked up often, so as not to entice rodents, or allow potential new HVR buyers to see an unkempt Park.

**Walk** on the left side of the street, facing traffic. Use single file when cars are approaching.

**Don't** let your young grandkids drive your golf cart. You might think it's "cute", but it is not only illegal but it is incredibly dangerous to everyone!

## **RECYCLING PROGRAM**

### **HVR's TRIVIA NIGHT Feb 28<sup>th</sup> 7:00 pm**

Trivia games "ain't no fun" if nobody on the team knows the answers to the questions, but this one isn't like that! It's more about having FUN than the money prizes, so the **questions are meant to be reasonably easy** for the most part, with just an occasional "toughie" to sort the winning team from the others.

Questions like these:

1. Name Disney's flying elephant.
2. What was the name of the Ranch on the TV show Bonanza?
3. Who was Prince Charles' first wife?
4. What time zone is California on?
5. What song starts out, "When I was just a little girl, I asked my Mommy...."?

Bonus: Who sang it?

And this "toughie":

6. What star of Western movies changed their birthname from Marion Morrison?

If you knew Dumbo, Ponderosa, Lady Diana, Pacific, Que Sera Sera by Doris Day, and knew or guessed John Wayne. you'd be good at this game. And remember, only one person on your team needs to know an answer to score a team point.

**Fee:** \$1 per player. Sign-up on posted sheet. (Minimum of 4 teams requested to be a viable activity)

**Teams** (of 2-4 players) will vie for top 3 prizes: 50%, 30%, & 20% of entrance fees.

You can form your team beforehand or come join up with whoever needs more members.

Bring beverages and team munchies, too.

There is also a monthly calendar which highlights "special" or significant activities to make them stand out and be less likely to go unnoticed. For example events such as Park Meetings, Fund Raiser Meals, or a Christmas Concert would be shown on the calendar whereas an event which occurs each and every Wednesday or every third Thursday is in the REGULAR ACTIVITIES list above.

Residents are encouraged to fill the calendar with those events which concern or interest them.

Alternately, use a highlighter pen to mark up the above list.
